

Overview

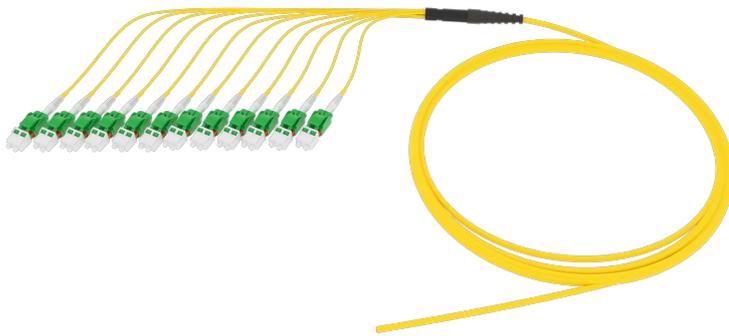

SpliceGroup™ offers a comprehensive range of factory-terminated, multi-fibre, Pre-Terminated Cable Assemblies for a wide variety of indoor applications.

Available in multiple fibre types, counts, and constructions including CPR-rated and Plenum options. With a broad choice of connector configurations, these assemblies provide excellent flexibility and fast installation.

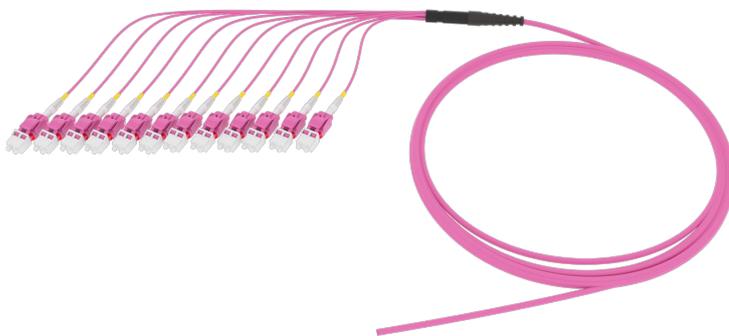

Supporting single-mode and multimode fibre, they are ideal for data centres, enterprise networks, and structured cabling systems. With true plug-and-play functionality, installation is quick and efficient, reducing deployment time and cost while meeting industry standards.

Main Features

- Plug and play design for fast, hassle-free installation
- Flexible configuration options with a wide range of cable and connector types
- Factory terminated connectors ensuring consistent, low-loss performance
- Numbered tails for quick and accurate identification
- Colour-coded cables for instant fibre-type recognition.
- Compatible with all SpliceGroup™ products.

Single Mode

Multimode

Specifications

General Specifications

Application	Data Centre, FTTX, Telecom, Road, Rail, Utility
Product Type	Pre-Terminated Cable
Compatibility	ODF, Panel, Cabinet, Modules (STM, SLM, CTM)

Design Hardware

Construction Type	Break-Out
Optical Fibre Type	Single Mode (G.657A1), Multimode (OM3, OM4, OM5)
Connector Type	LC, SC, FC, MTP®/MPO

Dimension Characteristics

Main Cable Outer Diameter	3.0mm, 4.0mm
Breakout Cable Outer Diameter	2.0mm, 3.0mm
Number of Fibres	Up to 24 Fibres

Cable Options

Jacket Rating	CPR Rated (B2ca-s1a,d0,a1)
	Plenum (OFNP)
Jacket Colour	Single Mode: Yellow
	Multimode: Aqua, Heather Violet, & Lime Green
